SACRAMENTO RIVER

Bottom Lands FOR SALE.

East Side of River, Seven to Ten Miles Above City.

No. 1—586 acres at $12 50 per acre; 75 to 100 acres of this timber land; three-eighths of a mile river front; good landing; all overflows in high water; about half of it in usual seasons dry in time to raise good crops of barley or oats; the other half good grass land.

No. 2—800 acres, with valuable improvements, at $40 per acre. Of this 160 acres are in cultivation; 10 acres in Orchard with choice fruit, in full bearing; 18 acres in Hops (a heavy crop); the remainder in Alfalfa, Oats and Barley, etc.; 100 acres of this orchard, hop and alfalfa land is protected by a large and substantial levee, front and rear, with pumping apparatus to remove surplus rain and sipage water in wet winters, and to irrigate in very dry summers; this 100 acres is sure of a large crop, all seasons, wet or dry; 80 acres more are within an unfinished levee; only a slight additional expense to completely protect this 80 acres; the greater part of land outside of levee is timber land, some of it covered with a dense growth of oak timber; wood worth $4 50 per cord delivered on the river bank; if desired I will sell the growing crop and all personal property with this 800-acre tract at a low figure.

No. 3—1,582 acres at $5 per acre; one mile river front; three-eighths of a mile leveed; land next to river partly wood land and partly arable land; next the timber and arable land is good grass land; further out the land was previously tule; now it is rapidly filling up with slickens and sediment.

Or the entire tract of 2,968 acres, together with the present year's crops, whether growing or harvested, together with the personal property, consisting of Horses, Farming Utensils, Hogs, Portable Steam Engine, Thrashing Machine, etc., etc., will be sold at $55,000. One-half or two-thirds the purchase price can stand on mortgage at 8 per cent for any length of time.

Also, city lots 5 and 6, T and U, Twenty-seventh and Twenty-eighth streets, at $100 each.

THE "HOME SEEKER."

The Immigration Association of Northern California is now preparing to issue the August number of the "HOME SEEKER." It is to be enlarged, and fully illustrated with lithographic views of Northern California. It will contain practical information of the resources and advantages of the Northern Counties. All the proceeds of this publication will be devoted to the carrying on of immigration work. We appeal to the business men of the Northern part of the State to give it their advertising support. By so doing, the work of bringing an increase of population to the State will be carried on. At Ogden a copy will be put in the hands of each incoming passenger. In addition to this, several thousand copies will be distributed on the trains leaving Chicago, in order to attract the settler intending to settle in other States and Territories. Give the "HOME SEEKER" your support. ap7-tf

ECZEMA.

For the benefit of suffering humanity, I deem it only my duty to give this unsolicited testimony in favor of Swift's Specific. My wife has been afflicted with Eczema from infancy. We tried every known remedy, but to no avail. She was also afflicted with a periodical nervous headache, sometimes followed by an intermittent fever, so that her life became a burden to her. Finally I determined to try Swift's Specific. She commenced seven weeks ago. After taking the first large bottle the disease seemed to increase; the burning, itching and inflammation became unbearable. She, however, persevered in the use of the medicine. After taking the second bottle the inflammation began to subside. After the third bottle the inflammation disappeared, and sore spots dried up and turned white and scaly, and finally she brushed them off in an impalpable white powder resembling pure salt. She is now taking the sixth bottle; every appearance of the disease is gone, and her flesh is soft and white as a child's. Her headaches have disappeared and she enjoys the only good health she has known in 40 years. No wonder she deems every bottle of S. S. S. is worth a thousand times its weight in gold.

Any further information concerning her case will be cheerfully given by herself at her residence, 135 Mullett street, or by me.

"How Can She Ever Love Him?"

Is what you often hear said when the prospective groom is the victim of catarrh. "How can she bear such a breath?" "How resolve to link her destiny with that of one with a disease that, unless arrested, will end in consumption, or perhaps in insanity." Let the husband that is, or is to be, get Dr. Sage's Catarrh Remedy, and cure himself before it is too late. By druggists.

A FORCE that fights successfully against disease. A host in itself, is Hunt's Remedy.

CAN CHOLERA BE AVERTED?

In the *North American Review* for August Dr. John B. Hamilton, of the marine hospital service, Dr. John H. Rauch, Dr. John C. Peters, Dr. H. C. Wood and Dr. Charles A. Leale, debate the question, "Can Cholera be Averted?" To epitomize their essays would be too extended in result for ordinary reading. Dr. Hamilton declares that the old doctrine of detention at quarantine, with its barbarous and cruel exactions, has gone to the limbo of exploded dogmas, for it is established that the morbific properties of the poison of cholera ejections may be preserved for an indefinite period if the matter is dried during the period of bacteria incubation, or of infection matter dried during the period of activity. The dried particles of cholera poison may be carried (in clothing, bedding, etc.,) to any distance, and when liberated may find their way direct to the alimentary canal through the medium of the air. So, Dr. Hamilton holds the practice of detention to be a delusion and a snare, and that the germs must be absolutely destroyed. This may be done by the speedy application of germicides. The President of the Board of Health of Louisiana was the first to test the efficacy of the new theory. He takes all the baggage and all the passengers at once from the ship to a room, where powerful disinfection is applied, and all fabrics submitted to boiling water and the hot iron. The clothing worn is exchanged for other already treated, and this in turn is disinfected. Meanwhile the ship has been cleansed and disinfected. The passengers are detained the prescribed time. The disinfection of a ship is done by means of hose, hot water and powerful germicidal gases, driven by a fan into every part of the ship. The decks are treated with bichloride of mercury, the most powerful and unsparing germicidal agent known. Dr. Hamilton calls attention to the fact that Congress has not provided for the proper equipment of our quarantine stations for resistance of entry of the germs. He urges municipal cleanliness, isolation of the sick, disinfection of dejecta and the thorough disinfection or destruction of all organic filth in cities, whether found in the ground or in the water supply. Every city should provide for the most careful inspection of all houses, streets, alleys and by-ways, markets, etc., and for frequent chemical and microscopic examination of the water, and if cholera breaks out, special hospitals and laundries must be provided, *and the dead should be cremated*. As to inoculation, the facts thus far developed by experiment do not prove its efficacy. One attack by cholera really predisposes the person to a second.

Dr. Rauch holds that as cholera never originates in America one can guard against it by rigid and thorough sanitary supervision over immigrant travel on arrival in the roadstead, at the point of landing, and at the point of ultimate destination. He would detain ships long enough to establish a perfect sanitary condition in her, and every thing on or about the ship, and no person of the ship should be released until every possible disinfectionary precaution has been exhausted. He believes in a thorough quarantine of observation and sanitation, and has no sympathy with the *laissez-faire* policy that condemns quarantine. He believes in quarantine at State boundary lines, *house to house inspection*, public and private, and especial efforts for the sanitation of water supplies, the emptying and disinfection of all vaults, and the draining off and disinfection of all stagnant waters. Isolation of patients and the surveillance of all persons related to the house infected is insisted upon.

Dr. Peters says cholera always comes to us in ships, and always gives us, by its prior appearance in Europe, one or two years for preparation. Cholera discharges abound in germs, and one grain produces 16,000,000 others in twenty-four hours. Mineral acids kill the germs, and act as antiseptics and disinfectants, but laudanum, nux vomica, calomel, quinine, chalk, bismuth, nor any alkaline remedy, affects them. A teaspoonful of laudanum was found not to affect the germs swarming in two teaspoonfuls of rice-water discharge. Singular as it may seem, when cholera enters a town, old residents succumb long before the persons who bring in the plague. A party of sailors came from Havre via Dover to Liverpool, and arrived with well-developed cholera. The physicians went back over the route and disinfected every spot where they had been, and thus checked the disease. The doctor declares that *no amount of impure air will cause cholera unless the germs have already been swallowed into the stomach*. But bad air, great smokes, gases, stenches from yards, streets, sewers and slaughter-houses render all cases more severe, or even fatal and hopeless. Contaminated water render cases of cholera hopeless. The United States and other navies have long protected their crews, not only from cholera, but dysentery, tropical diarrhea, and almost all bowel complaints, by the exclusive use of distilled water. No amount of imprudence in diet alone will cause Asiatic cholera unless some of the articles have been handled by those already suffering from the disease, and then a piece of bread will be as dangerous as an apple. But any imprudence in diet will aggravate cholera cases. One pound of corrosive sublimate in 500 pounds of water is the best germicide and disinfectant. It may in this proportion be even drank by the wineglassful, and will kills all germs in the system, but should be used under the control of physicians. It will disinfect all clothing placed in it, and all discharges in which poured. Weak sulphuric-acid lemonade is a practical preventive and curative remedy. One attack of cholera does not insure immunity, and hence inoculation cannot well prevent it. Dr. Wood says that for those who have no other duty but to protect themselves, while presence of mind is good, absence of body is better in a cholera epidemic. He advises flight to remote places and to mountain localities. If cities are kept *perfectly clean and the water supply pure*, the disease need scarcely be feared, but A perishes because B, in the next block, neglects sanitary precautions. Only water that has been boiled should be drank in the time of an epidemic. *Adding brandy to water is of no use at all*, and is more likely to be harmful than helpful as a preventive. The doctor dwells at length on the treatment of the clothing of patients, which seems to be more virulent in spreading the disease than the patients themselves. He decides that only two disinfectants should be used to destroy cholera germs—chlorinated lime and corrosive sublimate.

Dr. Leale believes the cholera will reach America. He places no reliance in Ferran's inoculation system. He urges that the water-supply sources be guarded from contamination. Municipal inspection and cleanliness and the most rigid enforcement of Board of Health rules are necessary. The doctor holds that absolute quarantine prevents the entrance of the pest, thorough disinfection exterminates it, and proper treatment carries a very large proportion of even the severest cases to recovery.

THE LATEST POLYGAMIC PROTEST.

The country is becoming heartily tired of the doleful proclamations of the case-hardened old libertines who rule the Mormon Church. That such offenders against the laws of the country and domestic decency should be permitted to abuse the public ear with their anathemas against a Government that refuses to legitimatize the Mormon harems, testifies to the breadth of toleration in this Republic, but it is also witness to our unpardonable neglect to crush out the infamy of "plural wifeism." Taylor and Cannon, who pose as injured innocents, but criminals before the law, Utah Turks and importers of ignorant women from the villages of Europe to cater a while to their lusts, and in their age to drudge upon the bottom lands of the Jordan as laborers in the fields which the Mormon Church refuses to permit its bondmen even the poor privilege of purchasing, but holds the wretches to be "stewards" in possession for the Church. In the latest address these saints, Taylor and Cannon, say:

> We cannot, however, at the behest of man lay aside those great principles that God has communicated to us, nor violate those sacred and eternal covenants which we have entered into for time and eternity. It is admitted as a fundamental principle that States shall make no law impairing the validity of contracts. If this is a correct principle concerning dollars and cents, how much more concerning eternal happiness and the salvation of many? While we always have a disposition to render unto Cæsar the things that are Cæsar's, we feel it infinitely more important to render unto God the things that are God's. We can afford to live for our religion, and if needs be, die for it, but cannot afford to violate our convenants nor perjure our souls before God.

Loathsome rot; insufferable twaddle. If religious tolerance has reduced us to the necessity of enduring such hypocritical pleas for crime, it is a grievous misfortune. But there is a limit to toleration, and the Mormon priesthood long since exceeded it. It is time that the most stringent measures should be adopted, and the most vigorous enforcement of them had. We have so long had this "Mormon evil" before our eyes, have heard so much of it, have become so familiar with its discussion, that the public mind is becoming indifferent to its enormity and vastness. It is worse to-day in every aspect than in any former time. It has contaminated a broader area of territory, it has more adherents than ever, it is more defiant, and is really assuming a form that may seriously involve the Government. In short, the wretched moral leprosy of polygamous Mormonism has been growing all the time, gaining in strength, and spreading in all directions, and even now foolishly essays to measure strength with the Government. The time has come to crush the evil.

THE public mind is becoming thoroughly possessed of the necessity and advisability of invoking the interference of the Government to prevent the further destruction of navigable waters in California over which it exercises jurisdiction. That the Federal Government can interpose a decree of injunction—not at all likely to be evaded, and from the process of which there can be no escape—is certain. The people must see to it that the Government is petitioned to act in its own interest and that of the valley.

IF A & B were engaged in extending a dump of sawdust from their mill into a navigable stream which the Government was endeavoring to keep open, clear out and prevent from filling up, does anyone suppose that the proper Government authority would fail to issue an order to A & B to cease doing damage by extending the dump? Precisely such an order must follow, and be enforced, regarding mining slickens, if the Government can be induced to enter upon the reformation of the river.

The Eureka *Times-Telephone* says: It will require fourteen thousand tons of rock to complete the Seal Rock lighthouse. It will all be taken from the Mad river quarry, and dressed on the peninsula. About one-half of it will be taken out this summer and fall.

AMERICAN AFFAIRS.

CONTINUED TRIBUTES TO THE NATION'S DEAD.

Spiritualists in Camp—The Colorado Flood—Races in the East—Washington Notes.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

Our Honored Dead.

MT. MCGREGOR (N. Y.), July 27th.—Few visitors are on the mountain this morning, and the guard detail and private body guard are in charge of the cottage. Only U. S. Grant, Jr., of the General's sons is with the family, Colonel Fred and Jesse having left the direction of affairs here to him and the private body guard. A handsome cluster of roses came to the cottage this morning, to be placed near the dead General. They will be replaced by lilies to-morrow, and by other and fresh flowers each day. This thoughtful tribute is due to a detail from U. S. Grant Post, G. A. R., who are the body guard. Eight men came yesterday morning, and five more from Brooklyn reinforced them to-day.

THE GENERAL'S WIDOW.

MT. MCGREGOR, July 27th.—The friends of Grant have serious fears for Mrs. Grant. She has hardly left her room since the death of her husband. She has not seen his remains since, and she has not strength to go into the room where the body is lying. The ties between the two were much closer than those which bind people in an ordinary marriage. It is feared that Mrs. Grant will give way and not long survive her husband. Great care will be taken to protect her from the excitement and strain of the funeral ceremonies.

AN AFFECTIONATE FAMILY.

MT. MCGREGOR, July 27th.—General Porter spent much of yesterday with the Grant family. He said he never knew a more affectionate family. None of them can as yet control themselves if they begin to talk about the General.

MEMORIAL SERVICES.

FREMONT (Ohio), July 27th.—Memorial services were held in the Methodist Church last night in honor of General Grant. It was a union meeting of all denominations. Ex-President Hayes made an address of an hour's length, giving a sketch of Grant as a youth, cadet, soldier, commander and citizen, and in each instance illustrated the traits of his manly character. He again referred to the propriety of the people both North and South uniting in erecting a national monument, saying that as churches and school-houses are educators, so would be a monument to Grant's memory.

LONDON, July 27th.—As a mark of respect for the late General Grant, military bands throughout England refrained from playing the usual Sunday selections yesterday, but played dead marches instead.

LONDON, July 27th.—It is now announced that the services in memory of General Grant at Westminister Abbey will take place at 4 o'clock on Tuesday, August the 4th. The Dean of Westminister will read the Episcopal service, and Rev. Dr. Farrar will deliver an address. A large number of Americans have been allotted seats for the occasion.

THE FUNERAL TRAIN.

MT. MCGREGOR, July 27th.—Manager Fonda, of the Mountain Railroad, has to-day determined upon the arrangement of the train that will carry the remains and family of General Grant from here to Saratoga. The body will be placed in what is known as the "observation car." This car is thirty-five feet long, with standard posts at the corners and sides, which support a roof over all. The car is inclosed on all sides to a hight of three feet from the floor, with seats running lengthwise of the car on each side. These seats reach to the rear. The car will be entirely open, and every part of it will be draped in mourning. The remains will be placed upon the funeral car from the rear, and will rest upon the pedestal in the middle of the car, and upon this car there will be twenty-six men attending the remains. Thirteen of them will comprise the guard of honor from U. S. Grant Post and the other thirteen will be selected from the regulars who are expected here from Fort Porter, by order of General Hancock. The car bearing the remains will be attached directly to the engine. Behind the remains will follow the ordinary passenger coach of the road, in which the family will be accommodated. This latter bears the name "Eastern Outlook," which is the point of observation to which General Grant was last wheeled in his chair, the Monday before he died. It is the same car in which the dead General ascended the mountain just seven weeks before the hour on which the remains will arrive at Saratoga on Tuesday, August 4th. If other cars are attached to the funeral train, they will be for the convenience of those most nearly concerned in the conduct of the obsequies. The train will consume one hour in running to Saratoga from the mountain-top. The transfer of the remains will be made at the Saratoga terminus of the mountain road. This is necessary, because the mountain funeral car is mounted upon narrow-gauge trucks, while the connecting roads are broad gauge.

GRANT'S BURIAL PLACE.

PHILADELPHIA, July 27th.—The *Times* continues its savage opposition to New York as Grant's burial-place. It says: "There is yet ample time for undoing the wrong that has been imposed upon the family of the General. It should be done in deference to the earnest wishes of more than 50,000,000 people, who pay sincere homage to his greatness, and would guard his ashes from the groveling ambition of speculation."

NEW YORK, July 27th.—General Drum has returned from Mount McGregor. He says he is satisfied with the selection of Central Park for the burial-place of Grant. He received confidential reasons for the selection from the family, which he considers good and sufficient. "What has been done is in every way proper. I do not think any change probable. The managers of the Soldiers' Home should have consented that a burial-place should be reserved there for Mrs. Grant also."

THE PRESERVATION OF THE REMAINS.

MT. MCGREGOR, July 27th.—The preservation of General Grant's remains during the heated term for a period of ten days is a matter of no little importance. Two days were occupied in the thorough embalming of the remains, the cavities and arteries being supplied with embalming fluid, which displaced the blood as it was introduced. In order that the present favorable condition of the remains may be preserved the embalming fluid, now active, will to-morrow be displaced and replaced by another operation with fresh fluid. The processes of absorption also render frequent treatment of the remains advisable, if not necessary.

FINANCIAL PROSPECTS OF THE FAMILY.

NEW YORK, July 27th.—A *Tribune* editorial takes a hopeful view of the financial prospects of the General's family from the sale of his book, and says: "Everyone in this broad land will be glad to know that the General was able to make arrangements with his publishers so liberal that Mrs. Grant will probably soon be placed in exceptionally easy circumstances by her share of the benefit in the sale of the book. She will receive 75 per cent. of the profits in America, and 85 per cent. of the profits abroad. The publishers estimate Mrs. Grant's share at certainly $350,000, and probably $500,000. This is highly gratifying. How the thought of his book must have sweetened the last hours of his heroic effort to provide for those dependent upon him."

THE GENERAL AS A CHURCH-GOER.

NEW YORK, July 27th.—When Dr. Newman accepted the call to the Congregational Church on Madison avenue, General Grant attended the services there. Previous to that the General had been a member of the Central Methodist Church on Seventh avenue, of which Newman was pastor. After Newman resigned from the Madison avenue church and went to California, Grant was without a church. Rev. Dr. Chadwick, at that time pastor of the Central Methodist Church, in the name of the Trustees of that church presented to the Grant family the pew formerly occupied by them. General Grant accepted it, but his illness prevented his ever attending service in the church again, but the pew remains in his name.

Dr. Tiffany, who was Grant's pastor in Washington, in a sermon here yesterday, abounding in personal reminiscences, mentioned a peculiarity new to many. Grant enjoyed all the religious services of the church, excepting the singing, having a constitutional inability to appreciate music. He told me once that all music seemed to affect him as a discord would a sensitive and skilled ear, and that he would go a mile out of his way rather than listen to the playing of a band. When the hymn to be sung consisted of four stanzas, he experienced a feeling of relief as each one was sung and so disposed of.

MRS. GRANT'S CONDITION.

MT. MCGREGOR, July 27th.—The reports which have been sent out in regard to the condition of Mrs. Grant are unduly alarming. She expects to accompany the remains to Albany, and no reason is known to the family why she should not do so. Mrs. Grant had not until the last days become convinced that no remarkable cure was to be effected in the General's case, as she had believed, and when his death occurred the effect of the disappointment, combined with the natural shock of her bereavement, produced a reaction, from which she has not yet recovered so as to enable her to mingle as freely with the family as before the General's demise. She is not confined to her bed, but on the contrary she yesterday felt that she would like to descend to the cottage parlor and view the General's remains. From this, however, Mrs. Grant was dissuaded by those who felt that the experience would further trouble and depress her. She cannot be said to be sick, nor absolutely prostrated. There has been a reaction, and an unusual prostration, from the causes stated, has followed.

SELF-EXPLANATORY TELEGRAMS.

NEW HAVEN, July 27th.—The following telegrams were exchanged to-day:

> I would respectfully suggest that if one or more military organizations from every State in the Union were invited to participate in the obsequies of General Grant, the invitation would be gladly received and very generally accepted. STEPHEN R. SMITH, Adjutant-General.

> Although it is not practicable for me to specially invite one or more military organizations from each State, as suggested by you, nevertheless all such as may promptly tender their services will be assigned by me a suitable position in the line, and I hope that many will be able to do so. W. S. HANCOCK, Major-General.

Secretary Whitney and the Roach Assignment.

WASHINGTON, July 27th.—Secretary Whitney has sent the following letter to Geo. W. Quintard and other gentlemen, to whom John Roach made an assignment:

> At our interview in New York on Wednesday last, you requested me to take into consideration each of the contracts between the Government and Roach, pending and incomplete, and in view of his assignment make some suggestion as to the method of dealing with the whole subject. I gave you assurances that I would do so, and communicate after reaching Washington. As I view the matter, the rules that govern individuals in their business transactions should govern the action of this Department. At all events, if there is a different rule proper to be applied, I am not aware of it. My duty here has seemed very simple and plain. It has been to insist upon the strict enforcement of the contract obligations, as interpreted to me, without regard to the consequences. That is the ordinary, plain business method, a departure from which a public officer can have no justification, and in like manner I know of no reason why the ordinary principle which actuates merchants in dealing with each other, and in accordance with which generous consideration is extended ordinarily to an unfortunate business associate, should not govern the action of this Department under similar circumstances. The business method of dealing with the matter, which would be pursued by private parties, would be first to become satisfied that the assignment was in good faith, from a business standpoint, of bringing about a settlement of the current and incomplete contracts upon a fair and just basis for both parties. If I have the power, therefore, I will enter into consideration with you of the point to which the contracts have been performed, and endeavor to settle upon some just and fair basis for a disposal of the matter. Of this I informed you at our meeting in New York. This course, just and right under the circumstances, is compulsory upon the Government in the present case. The very liberal treatment which the contractor has received heretofore has left the Government without a sufficient margin of moneys reserved to enable it to protect itself in the present situation. The contract provided that 10 per cent. should be retained from the bills as they came due, and held as security for the completion of the work. At the present time those reservations would have amounted to $210,710. They have been surrendered to the contractors, under circumstances not important to consider, with the exception of $26,670. In addition to this small sum of $26,670 in our hands, there are unpaid bills for extras claimed on the ships amounting to $26,689, and in dispute on the Dolphin $29,945, altogether (mostly in dispute) $83,304. As against this, the four ships are in your hands, upon which over $2,000,000 has been paid, which must be completed to be valuable, liable to greater deterioration by neglect than all the moneys unpaid and in dispute would repay. It is of the utmost consequence to the Government as it is to yourselves, that a just settlement of past transactions should be had, and a new departure made. I suggest, as a practical method of arriving at a solution of the matter, a meeting of yourselves and your counsel, and the Attorney-General and myself, at which some practical method of dealing with the subject may be arrived at, which shall be within my legal authority.

The American Turf.

SARATOGA, July 27th.—This is the third extra day of the race meeting here. The weather is superb, with a bright sun and cool breeze. The attendance is fair and the track in good condition. The first race, five furlongs, was won by Editor, Jim Renwick second, Scottish Lass third. Time, 1:02¼. The second race, one mile and a furlong, was won by Monogram, Enigma second, Rapido third. Time, 1:58½. The third race, three-quarters of a mile, was won by Bettler, Rosiere second, Avery third. Time, 1:17. The fourth race, one mile, was won by Fairmount, Volo second, Pegasus third. Time, 1:45½. The fifth race, one mile and a furlong, was won by John Davis, Belle Pate second, Blanton third. Time, 1:50.

AT BRIGHTON BEACH.

BRIGHTON BEACH, July 27th.—The attendance was large to-day, but the track was slow. The three-quarters of a mile race Wandering won, Bonnie Lee second, Jim Nave third. Time, 1:19½. The mile and an eighth race Nimblefoot won, Blue Bell second, Change third. Time, 2:01. The mile and a half race for all ages Topsy won, Nettle second, Tenstrike third. Time, 2:43½. The seven-eighths of a mile race for three-year-olds Lucy Lewis won, Miller second, Florence M. third. Time, 1:34. The next race, same terms, Three Cheers won, Nellie Walton second, Hawthorne third. Time, 1:34½. The mile race for maidens of all ages Donald A. won, King Robin second, Tom Kerns third. Time, 1:50¾.

FAST PACING AND RUNNING.

ST. PAUL, July 27th.—During an exhibition performance of Commodore Kittson's flyers at Rochester, Minnesota, to-day, the pacer Johnston made a mile in 2:11¼—the fastest mile ever made in this State, beating the recent Midway record half a second. Ollie Becker and Firebrand then made a running race in harness, the former winning by a length and a half in 1:53¾. This is believed to be the fastest mile ever made in harness.

Horses Poisoned with Croton Oil.

CLEVELAND, July 27th.—Recently there was a strike on the Payne-avenue street railroad, and the police had to be called out to disperse the turbulent conductors and drivers. Yesterday eighty-seven of the company's horses were poisoned with croton oil. Three have died, and the remainder are in a terrible condition. No arrests have been made, but the police are investigating the matter.

Camp Meeting of Spiritualists.

PHILADELPHIA, July 27th.—The Spiritualists' camp meeting at Neshaminy Falls was visited by 3,000 or 4,000 people yesterday. The extreme heat deterred the usual crowd. Mrs. E. L. Watson, of San Francisco, delivered an address on the uses of adversity in preparing men for higher spiritual life. Referring to General Grant, she said he had settled into almost absolute obscurity until the time came when his services were needed.

A Postmaster "Under Fire."

WASHINGTON, July 27th.—The President has referred charges against Postmaster Jones, of Indianapolis, to the Civil Service Commission. Commissioner Thoman and Chief Examiner Lyman have gone to Indianapolis to investigate the matter.

Father and Son Murdered.

FORT RENO (Ind. Ty.), July 27th.—News is received of a bloody affray at the ranch of R. N. Alexander, thirty miles southeast in the Chickasaw Nation. M. L. Lee and son, carpenters, were at work for Alexander on Saturday, when Bill Howe happened along and renewed an old quarrel. Howe shot the senior Lee twice, killing him, then turned and shot dead young Lee. The murderer fled south for Texas.

Novel Reason for Asking a Pastor to Resign.

LOUISVILLE, July 27th.—Rev. Dr. W. R. Davis, the colored pastor of Zion Baptist Church in this city, resigned to-night, by request of his congregation, who complained that he did not preach loud enough and did not raise them to that pitch of fervor which makes them so happy. Dr. Davis is a graduate of Harvard, and at one time was President of the Colored Kentucky State University.

The Baldwin Murder Case.

ATCHISON (Ks.), July 27th.—John M. Noble (colored), who was arrested on suspicion of complicity in the murder of Mary Baldwin, has been discharged. William Baldwin, a brother of the murdered girl, is in jail, awaiting trial next November.

Damages by the Colorado Flood.

DENVER, July 27th.—The Mayor of Colorado Springs estimates the damage from Saturday night's flood at $25,000, principally in the country. Mrs. Eaton's body has not yet been found. It is now believed the campers on Stocks Run were notified of the coming flood and reached a place of safety. The damages by last night's flood at Cherry Creek will not exceed $10,000.

Shocking Railroad Accident.

ATLANTA (Ga.), July 27th.—At Suwanee, on the Richmond and Danville Railroad, a train ran over a cow, throwing one car from the track. In the car were fifteen negroes, train hands, and six bars of iron. The car turned on its side, and the iron fell upon the negroes, killing seven and wounding three more.

New York Stock Market.

NEW YORK, July 27th.—Stocks opened weak, and a decline, ranging from ¼ to ⅞, occurred in the most active stocks, Union Pacific and Western Union being down ½, Northwestern ⅞, Lake Shore ¼, and others smaller fractions. In the early dealings Union Pacific sold off ½ and Lackwanna ⅞.

NEW YORK, July 27th.—Central Pacific, 32½; Burlington, 129½; Northern Pacific, 20⅞; preferred, 45½; Northwestern, 98⅞; New York Central, 96⅞; Oregon Navigation, 75; Transcontinental, 93⅞; Pacific Mail, 47; Panama, 90; St. Louis and San Francisco, 18; Texas Pacific, 13½; Union Pacific, 46; Wells-Fargo's Express, 110; Western Union, 64¼.

NEW YORK, July 27th—Noon.—Stocks were weak after the opening, declining ¼ to ⅝, although Union Pacific fell 1⅜. The decline was checked in the course of half an hour, and an upward movement set in, led by Northwestern, during which nearly all the early losses were recovered and something more. Northwestern advanced to 1 above the opening. At noon the market was moderately active and heavy, prices generally being a little above the opening.

NEW YORK, July 27th—3 P. M.—Stocks were feverish for a time this afternoon, but with an upward tendency, which developed into a decided strength and firmness in the last half hour, the market closing, however, with a slight reaction for some stocks and at the highest prices of the day for others.

SAN FRANCISCO ITEMS.

The steamer City of Rio de Janeiro from Hongkong, and the steamer San Jose from Panama, will be due next Friday.

Harry Maynard, tired of belonging to a business whose followers have made it disreputable, is going to sell out his saloon, quit boxing, and has bought an interest in a fur cleaning and dyeing establishment.

The annual report of the Police Surgeon for the year ending June 30, 1885, shows that 3,238 cases were treated in the Receiving Hospital. Of this number 2,715 were male and 523 female patients.

The seizure Saturday on the steamship Arabic of 33 five-tael boxes of prepared opium is reported by Surveyor of the Port Morton. Seizures of tobacco, silk, dominoes and India ink are also reported.

The United States steamer Wachusett, which has been relieved by the Mohican, is expected to arrive soon at Mare Island, where she will go out of commission. Should the estimated cost not exceed the twenty-per-cent limit she will be inspected and repaired.

There are three vacancies in the Customs service to be filled by Civil Service appointments. George A. Watson, Entry Clerk, son of Bradley J. Watson, late Navel Officer, has resigned, and there is a vacancy in the day and night force of the Inspectors in the Surveyor's Department.

Truman H. Allen, who has just been appointed Pension Agent in this city by President Cleveland, is a resident of Oakland, where he is engaged in carrying on a blacksmith shop. In 1882 Mr. Allen was nominated on the Democratic ticket for Clerk of Alameda county, and elected.

Professor Van Tassel made an ascension in the balloon City of London at 3:30 o'clock Sunday afternoon from Central Park. He disappeared in the fog in less than three minutes. The balloon landed at Walnut Creek at 5:34 P. M., having reached an altitude of 7,000 feet during the trip.

John W. Cherry, ex-County Recorder, died in this city on Saturday last. He was born in Paterson, New Jersey, in 1828, and came to this city in 1850, residing here continuously up to the time of his death. He was an active member of the old Volunteer Fire Department and President of the Exempts.

The work of counting the coin at the Mint is nearly completed, and there only remains the amount in the cashier's vault to count. The total sum counted is over $30,000,000. An inventory of the stock on hand and a scrutiny of the books yet remains before Judge Lawton will assume charge, which will be on August 1st.

Our California Pioneers.

EDS. RECORD-UNION: The citizens of Plymouth and vicinity on Saturday, the 25th instant, organized an association to be called "The Plymouth Society of California Pioneers," composed of thirty-six charter members. The object of the Society is the same as that of the California Pioneers, of your city. We hope to keep fresh in our memory the early days, struggles and privations of pioneer life; also to commend the pluck and energy of the men who planted upon the soil of the Golden State the seeds of civil liberty, and made them to grow and flourish, watered and enriched by their blood, until California is now the brightest gem in the grand constellation of the American Union. We should never forget that it is to the pioneers that we owe all of our civil and social privileges. It was the men who delved on our river bars, ravines and gulches, with pick and shovel, that planted Freedom's standard upon the Pacific slope, and who gave to the East—through her merchant princes—a large share in the commerce of the Oriental world.

It was our pioneer miners that supplied our merchants with golden mint drops as their commercial and banking capital, many of whom have laid the foundation of their future wealth with pick and shovel in the mines. It is these men who, by their prudence and industry, have secured to the citizens of this State our benevolent institutions, colleges and schools, free libraries and beneficent laws. The course of our pioneers has always been onward in the development of all the industries which tend to build up a State and secure happiness to her people. No other class of men have ever left such indelible footprints stamped upon the soil as our pioneers, especially in the mining section, where every gulch, ravine and hill bear the impress of the miner's pick and shovel, and will forever remain a witness of the enduring energy of our early pioneers. The history of our pioneers is not yet written; their work is not yet done. There still remains of that gallant band a goodly number who braved the dangers of sea and land, and on Pacific's shores gave one more star to the banner of our Union, crowned by an empire of wealth and beauty, as the priceless heritage of their children. The pioneers have always been noted for their kindness and charity. The latch-strings of their cabins were never closed to the stranger or unfortunate, and they gave with a liberal hand to their brothers in distress. The munificent bequests of California's pioneers have given a world-wide reputation to their generous deeds. Mr. Editor, I feel that I cannot do justice to this subject if I do not mention the name of Pioneer Lick. His name and deeds should be kept green in our memory until Mount Hamilton's astronominal observatory is washed away by time's corroding waves, or the foundation-stone of San Francisco's new Pioneer Hall shall crumble into dust. E. S. HALL.

RECORD-UNION MELANGE.

How doth the little busy *Bee!*

It has been definitely determined that locusts come once in seventeen years and Presidential Democrats once in twenty-four years. Both are musically noisy for a spell and then again disappear.

RENO (Nev.), July 26, 1885.

EDS. RECORD-UNION: Will you be so kind as to tell me what month, and what year, the corner-stone of the State Capitol was laid in Sacramento city. JOHN HAY.

The corner-stone was laid on the 15th of May, 1861.

The editor of the Oakland *Times* holds the medal for the latest best thing out. Being asked if he would act as Chairman of the committee to receive Mr. Henley, he replied, according to the *Alta*, that he certainly would, as he believed in extending every courtesy to distinguished foreigners who visit our country.

The San Francisco *Alta* calls attention to the fact that an unappreciated inventor is urging the railroad company to construct in the hold of the ferryboats salt-water swimming baths, heated to need by steam, and constantly freshened by water of the bay flowing in. Thus, as the San Francisco business man crosses the bay to his office, he can, for a nominal charge, wash and be cleaned and refreshed, and save the time necessary to go to a seaside resort. Isn't it enough that the hydraulic slickens is filling up the bay?

The Stockton *Mail* advises mob law, hemp, vigilantes, and all that, to punish officials in San Francisco who take bribes from the Chinese to permit them to continue corrupt practices. There can be no excuse for such advice; no such action can be tolerated. Violence and mob law have already retarded the anti-Chinese movement. To assail men with violence said to be favoring Chinese, will but aggravate the situation. The law is equal to the punishment of derelict and corrupt officers. Better suffer, than resort to violence.

A modest young Sacramentan was married a few days since, who was so bashful that he could not eat wedding cake after the ceremonies had been concluded. He lacked the self-assurance to cope with life's dangers that a young Texan did who went East recently to get married, and was asked while en route: "Don't you feel a little anxiety, a little trepidation, about taking such an important step in life?" "Nary a trep, stranger." "Have you ever been married before?" "No; but I've been in one fight with Injuns, two scrimmages with cowboys, an' went through forty cyclones. I'm no chicken."

W. H. Mullock, in his brochure entitled "Every Man His Own Poet," defined poetry, as practiced by the latest masters, to be the art of expressing what is too foolish, too profane, or too indecent to be expressed in any other way. This is a definition too harsh and unjust to even be witty. But some of the poetry now found in the press upon General Grant is too ripe with meaningless verbiage to be defined at all. Liberty of taste appears to have run to the riot of license. But there have appeared some very fine verses upon the death of the hero, notably a few lines by Dan. O'Connell in the *Alta*, and some genuine poetry by an anonymous writer in the *Bulletin*.

There is no end to the superstitions of men. In San Bernardino Truman Reeves was arranging mourning decorations in memory of General Grant. One design was a clock heavily draped with crape, with the hands indicating "8," the hour at which Reeves supposed the General died. The minute-hand, without any apparent cause, slowly moved till it marked a quarter past 8, and stopped. Mr. Reeves thought it somewhat strange, and again set the hands at 8 o'clock, when a second time the minute-hand moved till it marked the quarter hour and stopped. Upon making inquiries it was found that Reeves had made a mistake in the time, and that the clock was correct. It was then left marking 8:15. Now, ask the supersitious, what power made the hands mark that time? A mere coincidence—that the springs of the clock were exhausted with the hands in that position and would actuate the works to just that extent—nothing more.

The Los Angeles *Times*, in a side article, says there are among the teachers in the public schools of that city some four or five who are "outspoken and unrepentant rebels," and who, on historical subjects, deny facts to their pupils, and say to them, in response to some statement, "Ah! you got that out of some *Northern* history." The *Times* asks if these are proper people to teach history to children. At the risk of being told it is flaunting the bloody shirt, we answer in the negative. The teacher who does not respect, admire, love the country that protects him or her; the teacher who does not honor the flag and do obedience with his heart to the union of sovereign States, is out of place as a teacher of youth; out of time in this day and hour; out of tune to the music of the age, and is best placed when out of position to do harm by his or her pernicious prejudices. The kind of rebel that cannot be whipped is not the kind of which Confederate soldiers of courage and honor were made. They knew "when the thing was over."

HORSFORD'S ACID PHOSPHATE, one of the best tonics. Dr. A. Atkinson, Professor Materia Medica and Dermatology, in College of Physicians and Surgeons, Baltimore, Md., says: "It makes a pleasant drink, and is one of the best tonics in the shape of the phosphates in soluble form."

IF you suffer from looseness of the bowels, Angostura Bitters will surely cure you. Beware of counterfeits, and ask your grocer or druggist for the genuine article, prepared by Dr. J. G. B. Siegert & Sons.

The assessment roll of San Luis Obispo county amounts to $9,203,052.

A CARD TO THE PUBLIC!

THE AUCTION SALE AT 612 J STREET has not been advertised in the "Bee" lately, although at first that paper did advertise the sale, and during the time that this was the case had not one word of censure to offer. The fact is that this sale is conducted fairly and honorably, as is evidenced by the fact that out of the hundreds who have bought goods, only two persons have been found to be dissatisfied, and these through the advice and encouragement of interested persons. The bitter personal tone of the "Bee's" effusions comes from some other motive than that of protecting the dear public, else why did the sheet at first publish the advertisements inducing the citizens to call and purchase goods. The entire balance of this stock of fine goods will be closed out this day, and every article sold will be guaranteed to be exactly as represented. The scrubs who bandy about the word "swindler" without investigation, and probably without the intelligence necessary to investigate, can rest assured that if their articles could possibly do any harm, the proper steps would be promptly taken to secure a legal remedy. But it is feared that the fact that the bulk of the alleged circulation is used for wrapping paper would be used as a proof that no harm has been done. F. T. KEELAR, 612 J street. jy28-1t

GARLAND STOVES AND RANGES

SECRET OF SUCCESS!

We hear on every hand complimentary remarks concerning the immense strides we have made in our business the past ten years, and the wonder is through dull season's we have kept right along increasing, and though hundreds of our opponents have begun in our line of business, to day we have the finest retail trade in Northern California, or the State, for that matter. The secret of this is: We have unlimited capital; we discount all our bills; we buy from first hands, and lastly, our motto is, "SQUARE DEALING WITH EVERYONE!" Our trade extends through all the States and Territories this side of the Rocky Mountains, and to show the public the extent of our trade, we will mention one line of our business, and that is STOVES AND RANGES. Our books show our sales to have been in "GARLAND" RANGES AND STOVES, 2,086 for the past year, and out of this we sold 932 in Sacramento county. This is more "GARLANDS" sold in this county than all the other STOVES AND RANGES of every other pattern.

The past two weeks has been a busy one for us in "GARLAND" RANGES, and we take pride in giving a few names of those who have put "GARLAND" RANGES in their houses:

DR. BRUNE, corner Fourteenth and K streets.
SAM. KATZENSTEIN, Twelfth and P streets.

COUNTY ASSESSMENTS.

The Board of Equalization Makes Few Changes Therein.

Yesterday was the last day of the session of the County Board of Equalization, and there were present Supervisors Fassett (Chairman), Steinman, Jackson, Bates and McMullen; Clerk, Thomas H. Berkey. The Board took up the list of petitions that had been filed for reductions of assessments, and the action taken was as follows:

Petition of Eli Baker for reduction from $1,680 to $1,040. Granted

Petition of S. Roth for reduction on real estate and improvements from $18,000 to $15,800. Denied.

Petition of H. A. Parker, that the assessment of $400 on fruit trees and vines be stricken off, in consequence of the destruction of this year's crops by the grasshoppers.

Petition of Sacramento Turn Verein for reduction on hall property from $12,100 to $11,100. Denied.

Petition of Sparrow Smith for reduction on residence property from $4,225 to $3,425. Denied.

Petition of Henry Treichler for reduction on Mechanics' Hotel property from $10,000 to $8,000. Denied.

Petition of J. W. Kaseburg for reduction from $14,080 on land to $7,040. Granted.

Petition of John Reith, for reduction on land from $8,040 to $5,840. Granted.

Petition of Mary E. Gregory, for reduction on Second-street property from $13,200 to $10,000. Granted.

Petition of Henry Shaper, for removal of $500 on houses and furniture, since destroyed by fire and uninsured. Granted.

Petition of Congregational Church, for reduction from $4,000 to $2,000. Denied.

The matter of the proposed increase of the assessments levied against personal property of the following-named persons was, after due consideration, dismissed: C. P. Nathan, Joseph Hahn, J. Heyman, Simon Cohen, John Breuner, President of the People's Bank, Neubourg & Lages, W. D. Comstock, J. G. Davis, D. O. Mills & Co., A. Heilbron, Mebius & Co., and A. Coolot.

On motion of Steinman, a vote of thanks was tendered to Clerk Berkey for his efficient discharge of the duties imposed on him, after which the Board adjourned sine die.

PRISON DIRECTORS' MEETING.—The Board of State Prison Directors met at the Branch Prison in Folsom yesterday. C. W. Cross applied for a pardon for I. J. Stubbs, who killed John Campbell in Sierra county in September, 1882, and who was sentenced to eighteen years' imprisonment, on the grounds that he did not have a fair and impartial trial, that the act was committed in self-defense, and that, through some mistake, new evidence, forming the basis of a new trial, could not be presented to the Court. An application was also received from David McClure and others in behalf of Romualdo Cataldo, convicted of murder. Both of these cases were taken under advisement. The Board adopted a resolution declaring the possession of money by a prisoner in violation of prison rules, and providing that when found it should be confiscated; and also providing that the compensation paid prisoners at San Quentin should hereafter be retained by the Warden until the prisoners are discharged, not to be paid to him from time to time, as has heretofore been the custom.

PIONEER MEMORIAL SERVICES.—The Pioneer Association of this city will hold memorial services at their hall to-morrow evening. A committee appointed at a previous meeting, consisting of A. P. Catlin, J. H. McKune and Dr. Nixon, will report resolutions concerning the death of the lamented hero, who was, as has been already stated, an honorary member of the Society. It is expected that Judge Curtis, who presented General Grant while here with the certificate of his membership, will deliver a brief memorial address. Also, that addresses will be made by Senator Booth, who was a member in Congress while the General was Chief Magistrate; Carroll M. Davis, upon the part of the Native Sons, and perhaps others. There will also be appropriate music by a double quartet. Owing to the limited capacity of the hall only the pioneers and their families, which includes the organization of the Native Sons, can be invited to be present, and all others will necessarily be excluded.

ADMISSION DAY NOTES.—The joint celebration committee of the Native Sons of the Golden West, to attend the coming celebration of Admission Day at Santa Rosa, met last evening and held a very enthusiastic meeting. W. W. Marvin, Jr., of Sunset Parlor, presided. The Secretary was instructed to issue notices to each member, calling his attention to the celebration. A Committee on Transportation was appointed to negotiate with the railroad company concerning an excursion train, consisting of W. R. Ormsby, George H. Clark, Henry Ryan and Eugene Smith; also a committee of one was appointed to visit Santa Rosa to secure headquarters and accommodations. Communications were received from the Parlors at Marysville, Grass Valley, Nevada City and Auburn relative to co-operating with the Parlors here and attending the celebration in a body on that day. Every indication is assured that the attendance from Sacramento and vicinity will be far in excess of the number anticipated.

POLICE COURT.—The following business was transacted in the Police Court yesterday: D. Schamberger, disturbing the peace of his wife, pleaded guilty, and will be sentenced this morning; Charles Denis, a printer, fined $10 for battery; Frank Clark, a common drunk, was sent to the chaingang for sixty days; Michael Daly, a drunk, was fined $5; F. Nicholas and Ned Brown were discharged on a charge of drunk; William Dougan, charged with battery, was discharged; Joseph Sutherland, misdemeanor, case dismissed; C. F. Mead and R. W. Wilson, obtaining money under false pretenses, tried and submitted.

A CITY BOND CASE.

Judge McFarland Decides Relative to Interest Money in the Treasury.

The mandamus case of Daniel Meyer, one of the chief holders of city bonds, against Treasurer Porter, to compel the latter to pay over to him the surplus funds now in the city treasury as interest on the coupons held by him, was determined by Judge McFarland yesterday in Department Two of the Superior Court. Other holders of bonds of the city appeared as intervenors, they, too, desiring the privilege of having a grab at the money. Judge McFarland reviewed the history of the case, and ordered the payment of the coupons in the order of their maturity. His decision was as follows:

This is a proceeding commenced by petitioner to compel respondent, Treasurer of the city of Sacramento, by writ of mandate, to pay certain interest coupons held by petitioner. Intervenors are the holders of similar coupons older in point of time and maturity than those of petitioner; and they claim that as the fund provided for the payment of their coupons is not sufficient to satisfy all of the coupons now due, the respondent should be directed to pay them in the order of their maturity, presentation and registration. The case was heretofore submitted with the understanding that when the Court had reached a conclusion with respect to the main questions involved, it should indicate such conclusion by way of an opinion, and that findings should afterwards be prepared in accordance therewith. It was also understood that the decision in this case should determine all other similar cases now pending in this Court.

In accordance with the decisions of the Supreme Court, I find, 1st, that the Treasurer of the present "city of Sacramento" may be compelled by mandate, without the action of the municipal government, to pay the matured interest coupons of the bonds of the old "City and County of Sacramento;" and, 2d, that he cannot be thus compelled to pay interest on said interest coupons.

But there is not money enough in the interest and sinking fund to satisfy all the coupons held by the various parties, and the remaining question is: In what order shall they be paid by respondent?

The bonds to which these coupons belong were issued by the old corporation known as "The City and County of Sacramento," which was organized by the Act of April 24, 1858, and abolished by the Act of April 25, 1863, which latter Act organized the present City of Sacramento.

The said Act of 1858 created an interest and sinking fund, out of which these coupons were to be paid. Down to the year 1863 there was sufficient money in said fund to pay the coupons as they matured, and there was no trouble; but after January 6, 1863, more coupons were presented to the Treasurer, who was then Henry Miller, than there was money in the fund. The Treasurer, Miller, then adopted the plan of registering the coupons as they were presented, and paying them in the order of their maturity and registration as fast as money came into the fund. He procured a book for that purpose, and from that time until May, 1881, a period of more than eighteen years, the said Miller, and his successors in the office of Treasurer, continuously registered in said book all coupons which could not be paid upon presentation, and paid them in the order of their maturity and registration as money for the purpose was furnished. That is, they paid the registered coupons of a particular year before the unregistered coupons of the same year; but paid the coupons of a prior year, when presented, whether registered or not, before the coupons of a subsequent year. During all this time this system of registry and payment seems to have been accepted and acquiesced in by the holders of coupons, and also by the city. Petitioner himself presented many coupons to be thus registered. After 1881, owing to complications arising out of threatened litigation, the city authorities determined to cease temporarily the payment of coupons, and thus a large amount of money has accumulated in the fund.

I think that this system of payment has been recognized and sanctioned by the Legislature by the Act of April, 1861 (statutes of 1861, page 97); by the Act of March 22, 1864 (statues of 1864, page 217); and by the Act of March, 1872 (statutes of 1871-72, page 546) creating the Commissioners of the Funded Debt Sinking Fund.

In the case of Freehill vs. Porter (3 West Coast Reporter, 780), it seems from the pleadings that the point here discussed must have been involved, and that the Supreme Court must have held that the coupons should have been paid in the order of their maturity, although the point does not appear in the opinion of the Court.

From the foregoing considerations, as well as from others which readily suggest themselves, I conclude that it is the duty of the respondent to pay the coupons involved in this case and in the other proceedings pending in this Court, in the order of their maturity, to the extent of the moneys in his hands belonging to said interest fund. I do not see what other rule could be adopted that would not lead to disorder and confusion, and work injustice to claimants whose money was due long before petitioner's demands had matured. Here is a continuous fund drawing supplies from continuous sources of revenue and intended for the satisfaction of certain claims which are to become due from time to time during a long series of years. It was expected, no doubt, that the accruing revenue would be equal to the maturing claims. It turned out, however, that for a long time it was not. Then naturally the Treasurer, with the acquiescence of all, began, and for many years continued, to pay the claims in the order of their maturity—the oldest first. Finally, for reasons above indicated, there accumulated a large amount of money in the fund, but still not enough to satisfy all matured claims. Petitioner now says that this money should be applied to his later claims, to the exclusion of intervenor's older ones. Upon what ground is this claim based? Solely upon the ground that he has commenced this suit. But the commencement of the suit created no new right. Whatever right he had before this proceeding was begun he has now—and no greater. This is not a case where a party, by superior diligence, has created, or unearthed, a fund. His suit has not put a dollar into the city treasury, or made any new revelation of money there. Intervenors lost no rights by not anticipating petitioner in the matter of commencing legal proceedings. They could safely expect that when money would again be paid out by the Treasurer, it would be paid according to the established order. If they had commenced suit first, they could not have succeeded unless their claims, before the suit, had been the better.

It is argued that, this being a mandamus proceeding, respondent can be made to do only what is specially enjoined upon him by law, and that therefore considerations as to the order of payment, etc., are irrelevant here. But the Supreme Court having held that it *is* his plain duty, made by law, to pay these coupons to some one, and the parties owning the coupons being now here in Court, it must be determined to whom he shall pay the money now in the fund. Both petitioner and intervenors have presented their coupons to him and demanded payment. Not having money enough to pay all their claims, it must be determined to whom he shall pay the money which he has.

My conclusion is that a writ of mandate should issue, requiring the respondent to pay the coupons of the various parties in the order of their maturity and seniority. Let the parties prepare their findings.

WEATHER NOTES.—From the Signal Service reports last night one would think a warm wave was on its way down the coast. It has been exceedingly warm in Washington Territory and Oregon. In the interior of the country mentioned above the thermometer reached 90° and above, the highest being 98° at Olympia and Dayton, while in California at no Signal Service station was the thermometer as high as 90°; in fact, the highest being only 87° at Red Bluff and Keeler, or 11° cooler than the hottest point in Washington Territory. As the science of meteorology teaches us that all storms and hot and cold waves begin in the west and northwest and travel eastward, therefore by the teachings of meteorology it ought to be considered warmer during the next few days than it has been during the past few days, judging from present meteorological condition to the north and west of California. The highest temperature yesterday was: For Olympia, 98°; Spokane Falls, 90°; Dayton, 98°; Port Canby, 70°; Portland, 96°; Roseburg, 88°; Cape Mendocino, 60°; Red Bluff, 87°; Sacramento, 78°; San Francisco, 68°; Keeler, 87°; San Luis Obispo, 73°; Los Angeles, 80°; San Diego, 76°. At noon yesterday the temperature at Salt Lake was 86°; Cheyenne, 82°; Denver, 86°; North Platte, 84°; and Omaha, 88°.

NO JURISDICTION.—Judge Van Fleet decided yesterday that his Court had no jurisdiction over the child of Frank and Anna Belle Noble, which the former took to an Eastern State and left there. The wife sought to compel the husband to bring back the child.

BRIEF NOTES.

Two carloads of immigrants arrived from the East yesterday.

A quantity of women's clothing was found by officer Arlington yesterday on L street.

Yesterday was another delightfully cool day—such as would make the average watering-place ashamed of itself.

The name of Thomas Klebbs appeared solitary and alone on the police slate last night, opposite a charge of drunk.

On Sunday morning the two-year-old son of Fred. Stevens fell from a high porch at the residence on N street, bruising his head severely.

The Board of Trustees met yesterday, received the weekly report of the Chief Engineer of the water works, audited a few bills, and adjourned.

Mrs. Wantland, who lives a few miles in the country, was thrown from a buggy on the lower Stockton road, a few days since, and suffered the fracture of four ribs.

Every member of Warren Relief Corps is requested to be at their rooms, Fifth and J streets, this afternoon at 2:30 o'clock. Business of importance is to be transacted.

Ripe grapes of the Black Morocco variety were received yesterday by a gentleman of this city from Yuma, Arizona. They are about a month earlier than in California.

A one-armed violinist was the center of attraction on the streets yesterday. He held the bow under his knee, and brought music from the instrument by rapidly manipulating it upon the bow with his remaining hand.

The auction sale of jewelry and plated-ware at 612 J street, conducted by F. T. Keeler, will be concluded at sales to-day and this evening, as announced in a card to the public this morning in another column.

The statement published in connection with a proposed new German paper in this city, to the effect that Charles Schmidt is at present the publisher of the Sacramento *Journal*, is incorrect, as that gentleman severed his relations with the *Journal* some years since.

There is a young gray eagle, owned by a K-street tinsmith, which seems to be content to stand on a box all day long without making any effort to get away. The bird of freedom, with its "storm-daring pinion and sun-gazing eye," seems to be, in fact, down in the mouth about something.

Articles of incorporation of the Bank of Tulare were filed yesterday in the Secretary of State's office. The new concern has a capital stock of $100,000, and its Directors are J. H. Bradley of Fresno, Hiram Maybury of San Jose, and S. Goldman, E. Lathrop and F. M. Schultz of Tulare City.

Attorney-General Marshall has instituted suit in the Superior Court of San Francisco in the name of the People of the State, to declare forfeited the franchise of the Crystal Ice Company, on the ground of fraudulent transactions on the part of one of the principal stockholders of the company named Keefer.

A. J. Senatz last evening received a dispatch from Oakland, stating that John Thomas was dying in that city. Mr. Thomas is an old resident of Sacramento county, having for many years lived upon and owned the fine ranch now the property of Weinstock & Lubin, at Mayhew station, on the Sacramento Valley Railroad.

A handsome title sign of the "E. B. Crocker Art Gallery" has been placed over the main entrance to that building by the Museum Association. Fifty small directory cards noting free days for the gallery have been prepared and are being framed. They will be hung at the depot, in the hotels, reading-rooms and other public places. Each card is about eight by ten inches.

Board of Education.

The regular monthly meeting of the City Board of Education was held last evening, all the members present except Director Stevens, who is absent from the city.

The Furniture and Supply Committee was authorized to advertise for wood and such other articles as they may need during the coming year.

The Building and Repair Committee read a report of the repairs necessary to be made during vacation. The estimated cost is as follows: High School, $550; Fourth and Q streets, $375; Capital Grammar School, $165; Twenty-fourth and N street, $220; Twenty-seventh and J, $30; Sixteenth and N street, $20; Sacramento Grammar School, $150; Thirteenth and G, $200; colored school, J street, between Ninth and Tenth, $40. Total, $2,000. The repairs for blackboards, walks, fences and exterior painting are estimated at $500, which will make the entire repairs amount to $2,500.

On motion of Director Conklin the Building and Repair Committee were directed to proceed immediately and make the repairs in accordance with the report.

The salary of Vice Principal of the Capitol Grammar School was increased from $90 to $100 per month and all the other salaries to remain as they are at present.

Conklin recommended that the teacher of French at the High School be made a full day teacher.

James Seadlar presented a bill for $215 for services rendered as architect. Mr. Chadderdon moved that it be paid, seconded by Mr. Slater. Mr. Alsip moved to amend, making it $115, seconded by Mr. Avery. The amendment was adopted by a unanimous vote.

The following is the report of the City Superintendent for the month of July: High School Enrollment 114; average daily attendance, 105. Sacramento Grammar School Enrollment, 298; average daily attendance, 284, corporal punishment 3. Capitol Grammar School Enrollment, 335, average attendance 296, corporal punishment 3. Primary schools Enrollment 1849, average daily attendance 1798, corporal punishment 57. Twenty-fourth and N street Enrollment 176, average daily attendance 155, corporal punishment 1. Total Enrollment 2872, average daily attendance 2578, corporal punishment 64 German class Enrollment 198, average daily attendance 191. French class Enrollment 32, average daily attendance 28.

So far the Board has had intimation of no resignations that will be handed in, but the applications for positions as teachers on file are quite numerous. The following were handed in last evening: Miss Laura M. Toll, Miss Kittie Brier, Miss Emma S. Kleinsorge, Miss Isabella G. O. Key. The following named persons apply for positions as janitors: Mrs. E. Cheme, Mrs. Delia Sheridan, Mr. A. Hoffman.

It was announced that the closing exercises of the various schools, to which the public generally are invited, will take place as follows: High School, Wednesday, 10 A. M.; Capitol Grammar School, Thursday, 10 A. M.; Sacramento Grammar School, Friday, 10 A. M.; German class, at the Sacramento Grammar School building, Friday, 1 P. M.

The following bills were audited and ordered paid: J. A. Lafferty, $6; Baker & Hamilton, 75 cents; North German Insurance Company $50; H. S. Crocker & Co., $2 50; L. L. Lewis, $2 50; Noble Fisher, $9 00; RECORD-UNION, $15; Capital Gas Company, $5 40; Friend & Terry, $8 15; Leonard & Son, $50; N. Fisher, $1; Lewis & Johnston, $59 50; E. S. Ragdale, $2 50; Hays & Jackson, $3; A. L. Hart, $50; George Louney, $6 75; J. E. Hobbie, $5; C. K. McClatchy, $8; N. D. Goodell, $12; H. Coates, $6; C. S. Houghton, $120 83; H. S. Crocker & Co., $55 18; S. Morris, $4; pay roll, $6,867. Total, $7,350 96.

MAIN VS. CALIFORNIA PACIFIC.—The San Francisco *Post* of last evening says: The famous suit of Charles Main, as one of the stockholders of the old California Pacific Railroad Company, against the Central Pacific Railroad Company, to compel an accounting to the shareholders of that corporation of the profits and all the transactions between it and the Central Pacific, was commenced this morning before Judge Hunt. The point of the complaint is that the California Pacific stockholders were defrauded of their property, and its value decreased to benefit the Central Pacific managers by illegal methods. L. E. Chittenden, of New York, an attorney who has considerable reputation East as an exponent of the laws governing corporations, appeared for the plaintiff, assisted by E. J. Pringle, while for the defendant appeared Samuel M. Wilson, Judge McKisick, T. B. Bishop and Harvey E. Brown. Mr. Chittenden detailed the plaintiff's side of the case with great minuteness. Counsel maintained his ability to prove by the evidence his allegations of spoliation, all of which are positively denied by the defendants, who say that there is nothing in the case but a speculative scheme to bulldoze them into buying a block of California Pacific stock for more than it is worth.

Mrs. W. H. Wright and daughter Nellie gave Mr. Wright a very neat little surprise on last Friday evening, with the assistance of the officers of Capitol Lodge No. 87, I. O. O. F., of which Mr. Wright is present presiding officer. After Lodge closed the Secretary managed to detain him, under pretense of signing warrants upon the Treasurer, etc, until the members had all retired, and gone to the residence of Mr. Wright, on M street. On arriving home he found the parlors filled with those who had left him so unceremoniously a short time previous. He was heartily surprised, but upon being asked to make himself at home, accepted the situation graciously and said it was all *Wright*. Miss Nellie entertained the company with choice music upon the piano and with songs, until the hostess invited all to the dining hall, where the tables were loaded with ice cream, fruit, cake, wines, etc., which was properly attended to. After the repast wit, mirth and song prevailed until a late hour. There were of the party W. A. Stephenson, James Scott, Charles Cooley, L. B. Vandenburgh, Richmond Davis, J. Waverly Johnson, W. S. Oke, S. A. Wolfe, A. H. Powers, James Seadler, Alexander Smith, James Stewart, Frank Hickman, P. H. Dodge, Leonard Warner, J. H. McDonald, James Henderson, James Patterson, Ed. The Loyal Legion and the Death of General Grant.

San Francisco, July 27th.—The dinner of the Loyal Legion, announced for August 5th, has been postponed on account of the death of General Grant. The Legion has issued the following circular:

IN MEMORIAM.
ULYSSES S. GRANT.
General United States Army,
DIED AT MOUNT M'GREGOR, NEW YORK,
Thursday, July 23, 1885.

After months of suffering, borne with unexampled fortitude, our old commander, the grand old hero, has been called from among us to join the great army of old soldiers, who, under his command, gladly laid down their lives for the sake of their beloved country. Upon our companions of the Commandery of the State of New York the blow has fallen with particular severity: he was their commander, and his chair, now vacant, can never be filled. But to the Loyal Legion he was even more, for only by his great achievements, only by his unequaled generalship, was the organization of our grand Order rendered possible; but for him would we ever have existed as an organization?

Companions of the Loyal Legion, wherever they may be, mingle their tears together; every Commandery is filled with woe, and our hearts are full beyond utterance with sympathy for the sorrowing family of the nation's greatest soldier.

The Commandery of the State of California,
W. L. ELLIOTT, Commander,
W. R. SMEDBURG, Recorder.

The San Jose G. A. R. and Grant's Burial Place.

San Jose, July 27th.—John A. Dix Post, G. A. R., at a meeting this evening, adopted resolutions on the death of General Grant, one of which was:

Resolved, That while we are bound to respect the wisdom of his afflicted family, we should have preferred that the ashes of the General we followed in war and honored in peace should have been permitted to repose in the grounds of the National Soldiers' Home in Washington, where they would have been guarded by his living comrades, and surrounded by the graves of other comrades, who, like himself, have answered to the final roll-call.

Delegations from the Phil Sheridan and John A. Dix Posts waited upon Mayor Settle, and asked that a citizens' meeting be called to arrange for General Grant's obsequies. A meeting has been called for to-morrow evening.

Stringent Anti-Chinese Ordinance.

San Francisco, July 27th.—An ordinance was introduced in the Board of Supervisors to-night, based on the report on Chinatown made last week. It forbids the use of doors more than two inches thick, and the use of such iron bars to secure doors as will prevent the police from breaking in after gamblers, or in case of fire. The owners of houses, as well as the tenants, where such doors may be found, after notice by the police, are liable to $100 fine, and imprisonment from one to six months; provides that violators of the cubic-air ordinance, when convicted, shall work on the sewers or streets, under a guard of police; provides for renting places for branch jails, when made necessary by the large number of arrests of Chinese offenders; forbids the use of open fires in Chinatown, and property-owners, as well as tenants, are liable to prosecution for permitting them after notice by the authorities; forbids property-owners letting houses to Chinamen for gambling or prostitution, such owners to be fined and imprisoned; requires every regular and special officer to make weekly reports in writing to the Chief of Police of any violation of this ordinance, and of the condition of the streets and alley in Chinatown. If the sanitary regulations are violated, then to the Health Officer; or if the fire ordinances are violated, the Chief Engineer of the fire department shall order the owner of the property to comply with the law within twenty-four hours, and if not done then, said officers shall immediately proceed to do what may be necessary, and such owner shall be fined double the amount of the cost of such work, besides undergoing imprisonment from thirty days to six months.

Stage "Held Up" and the Passengers Robbed.

Nevada, July 27th.—The stage from Washington was stopped by two highwaymen this morning, eleven miles from here, and within one mile of the Central House. There were five passengers on board. The robbers compelled them to get out of the stage, and while one stood guard his "pal" relieved the passengers of their money and other valuables. From H. S. Current and his two sons $139 50 was taken, besides two pistols. Mrs. Wade, a widow, was obliged to hand over $40 and her jewelry. From the driver, George Grissel, $200 was taken, most of which belonged to other parties. The line is not an express line, consequently there was no treasure aboard.

Unhealthy Place for "Bee" Canvassers.

Nevada, July 27th.—A miners' meeting was held at North Bloomfield Saturday night, at which resolutions were adopted censuring the action of the anti-debris people in sending spies into mining communities. The presence of spies has grown offensive to the miners, and the tenor of the resolutions indicate that it will not be very healthy for a spy to be caught there hereafter. A committee was appointed to look out for the interests of the miners.

Bullion En Route—Stamp Mill Burned.

Nevada, July 27th.—Bullion to the amount of $40,000 passed through here today on its way to San Francisco. The gold was taken from a gravel mine in the upper part of the county, which is owned by a Chinese company. Since the white miners were enjoined, the Chinese have been obtaining large returns from this class of mining.

Last night the 10-stamp mill on the South Yuba Canal Company's drift claim at Chalk Bluffs was destroyed by fire, causing a loss of $5,000. There was no insurance. It is supposed that the fire was of incendiary origin.

Destruction by Fire.

Susanville (Lassen county), July 27th.—Chinatown by the river was entirely destroyed by fire here yesterday. Seven houses were burned, belonging to Morgan Williams. Loss, $3,000; no insurance.

Dutch Flat, July 27th.—The cement mill owned by the South Yuba Water Company, located at You Bet, was destroyed by fire last night. Loss, $8,000; no insurance.

Largely-Attended Funeral.

Red Bluff, July 27th.—The funeral of A. J. Loomis, ex-County Treasurer, who died on Saturday last of heart disease, took place this morning from the Presbyterian church, and was as large as any ever attended in the county.

Increased Value of Property.

Napa, July 27th.—The assessment roll of Napa county for this year foots up $11,000,000—an increase of five per cent. over last year.

Serious Accident.

Oroville, July 27th.—A serious accident occurred yesterday to J. W. Bowers and A. E. Anderson, two of our county Supervisors. While crossing the bridge spanning the South Fork of Feather river at Enterprise, in a two-horse buggy, one of the planks broke under one of the horse's feet. The end flew up and struck the other horse, who sprang forward, and the buggy striking the broken plank, threw Mr. Anderson, who was driving, out of the buggy. The horses ran with Mr. Bowers, and running of the grade, upset the buggy. Mr. Bowers' left arm was broken, and he was otherwise badly bruised. Mr. Anderson escaped with a badly sprained ankle and numerous bruises. The buggy and team were badly wrecked. The gentlemen were brought to town last night, and are as comfortable as could be expected.

Narrow Escape of Six Men.

Petaluma, July 27th.—An accident which created great consternation for a short time occurred here to-day, in which six men narrowly escaped serious injury. While a party of workmen were excavating for the foundation of a new building on Main street, the brick wall adjoining, twenty feet high, gave way, together with an old frame building attached. Six men and two horses, attached to wagons, under the building at the time, miraculously escaped with but slight bruises, although the wagons were a total wreck.

Suicide of a Lunatic.

San Diego, July 27th.—The news of a distressing suicide at Poway reached San Diego to-day. The victim was Milton Dodson, who was discharged from the insane asylum only a few months ago as cured. He had previously tried to commit suicide by poisoning. This morning he was unusually violent, and attempted to kill his brother with a bar of iron. Failing in this, he retired to a room and there disemboweled himself with a razor. He was an old Californian, 50 years of age, and unmarried.

Distillery Seized.

Stockton, July 27th.—This afternoon revenue officers seized the distillery of A. Rossi, in a cellar here, for a failure to stamp goods and using old stamps on packages. The seized goods are valued at $1,000. Special Agent Wilson is here to gauge the liquor and assess the penalties.

ARIZONA.

Proposed Railroad to the Coal Fields.

Florence, July 27th.—It is learned through reliable sources that the Southern Pacific Company has sent Engineer Gustave Cox out to survey and prepare estimates of the cost of running the necessary tunnels for the contemplated railroad from Willcox, A. T., to the Deer creek or San Carlos coal fields. A former survey of this route developed the fact that the last six miles next the coal fields required almost continuous tunneling. Parties familiar with the country and the practicability of the different routes, say that the one proposed can only be constructed at an enormous expense, and then traverse a region almost barren of resources. A line from Casa Grande or Pachacho, via Florence, Gila canyon and Deer creek, is regarded as much more feasible. It could be built for one-third less expense, while the intervening country is rich in agricultural and mineral resources that would greatly contribute to the profit of the road. Recent developments at the coal fields fully confirm the previous reports of the extent and permanency of the coal formation, and the people of this section of the Territory strongly urge upon the General Government the necessity of the segregation of these valuable coal deposits from the San Carlos Reservation. Owing to the present high cost of transportation of coke and the low price of copper, the production of that metal has almost ceased, while if coke could be obtained near at hand, Arizona could produce enough copper to supply the world.

The Apache Outbreak.

Willcox, July 27th.—Five companies of troops which were concentrated here have been dispatched to different points to try and intercept Geronimo and his band, who, it is reported this morning, have left the Whetstone Mountains and crossed the railroad track a few miles west of here, the trail leading towards Arivapa canyon. The opinion is that they are so hemmed in by the troops that they are now making a dash for the mountains, in which, once reached, they are safe at least from immediate slaughter, which they know they are doomed to if caught in the field. Should they reach the reservation and be protected by the agency, public feeling is very strong and will culminate in a general massacre.

Several well-known noblemen have suffered social ostracism in London on account of the publications in the *Pall Mall Gazette*. Several prominent men in society, whose names appeared upon the books of the notorious Mrs. Jeffries after the police descent upon her luxurious establishment several weeks ago, have disappeared from London and are believed to have gone to America.

General Booth, of the Salvation Army, has announced a grand parade of the Army in London for to-day. The object of the demonstration is to influence Parliament, in view of the revelations made by the *Pall Mall Gazette*, to pass the proposed Criminal Amendment Act increasing the age of consent from thirteen to eighteen years. The Army will march to the House of Commons and present to that body a petition, signed by 500,000 people, praying for immediate reform of the English criminal laws relating to the corruption of girls.

FOREIGN FACTS.

CHANGE IN THE TURKISH CABINET THREATENED.

Ravages of Cholera—The Afghan Boundary—Spanish Commercial Treaty.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

Another London Scandal.

London, July 28th.—A Radical member of the House of Commons and of the late Cabinet is seriously annoyed by a prevalent scandal. According to the current story, this statesman, who is a widower, took to his private residence, a few weeks ago, the wife of another well known London gentleman. They entered a room, when to the horror of the lady she discovered another woman in the apartment. This compromised the ladies so much that she bitterly upbraided the statesman, and there was a terrible scene. She finally left the house in desperate anger, and confessed the whole circumstance to her husband. The scandal becoming public, the aggrieved husband begged the aid of a noble Earl and a most popular commoner, both members of the late Cabinet, to suppress the reports. Both ex-members consented to try, and they have employed the past fortnight in efforts to make a settlement. Friends of the accused are willing to pay any sum to prevent exposure. Both houses of Parliament are fully possessed of the facts, and the scandal is the sole topic of conversation in all the West End clubs. The Tories are gleeful, and the present Ministers have high hopes of ruining by exposure the famous citizen and diplomat who is inculpated. The Tories are straining every nerve to secure an exposure, so as to destroy the chance of Radical success at the general election. They are urging the husband not to recede, and are promising him legal aid and social protection. It is alleged that the accused gentleman refrained from addressing a great political meeting last night, which he had intended to address.

Radical Meeting Abandoned.

London, July 28th—A. M.—Much surprise has been caused by the sudden abandonment of the Radical meeting which had been arranged by Sir Charles Dilke, and at which he was to have been the principal speaker. At the last moment Sir Charles excused himself, saying that he was utterly prostrated in consequence of the mental strain of the past few weeks.

Prospective Change in the Turkish Cabinet.

Varna, July 27th.—Deep interest has prevailed in official and diplomatic circles for the last few days, owing to the dangerous illness of the Grand Vizier, who had an apoplectic attack. It is still doubtful whether he will recover from its effects, but his retirement is regarded as almost certain, as, according to the law, persons once so stricken are no longer considered competent to direct public affairs. Various reports are current as to the cause of Said's illness, some alleging as the reason that it was produced by indigestion, while others are whispering that it was brought on by fear of having fallen under suspicion of maintaining secret intercourse with the heir apparent. A circumstance which gives color to the last report is the sudden dismissal of three palace physicians, who were only recently promoted to the higher rank through Imperial favor. A change of Ministry is undoubtedly imminent. Rumor is already busy with the name of Said's successor. Abdin Pasha, Hamdi Pasha and Hashan Tehmi are mentioned. Etham, who was the Grand Vizier during the war, is considered to have the best chance, although the partisans of British alliance will strive to secure the appointment of Hashan Tehmi.

A Fling at the Prince of Wales.

New York, July 27th.—The Radical newspapers are abusing the Prince of Wales for going in for a racing stud. They refer to the many scandals which have lately been exposed in connection with the turf in England, and insist that the man who expects to be the next King of Great Britain should not defile himself in such a dirty puddle. They also recall the career of that royal blackleg, George IV., and express the hope that the blackguard taint in the Hanoverian blood will not be exhibited in the person of the next Sovereign.

The Afghan Boundary Question.

Brussels, July 27th.—The *Nord* says: Russia consents to a frontier the Afghan side of which is topographically closed and easily defendable, but insists on a well-defined Russian side, to prevent Afghan incursions. The best method would be to define a broad line in London, and settle the details on the spot, in order to prevent a misunderstanding where the same name is given to different localities.

The Cholera in Spain.

Paris, July 27th.—News from the village of Montagudo, 100 miles north of Madrid, states that in eight days there have been 210 deaths from cholera, and 300 remain ill out of a population of 8,000. The greatest consternation is caused by this extraordinary death-rate, which is more severe than in any previous case during the present epidemic. Even the highest village officials are forced to bury their own dead, as no sextons remain.

Germany and the Socialists.

Berlin, July 27th.—The Government has ordered an investigation into the circumstances of the Socialistic riot at Frankfort-on-the-Main, with a view, it is reported, of declaring the city in a state of siege. Such a declaration would place the town so absolutely under the iron rule, that the Government believes it could entirely suppress Socialism there. It is reported that the Government has decided to make an exhaustive inquiry into the subject of Sunday labor.

The Spanish Commercial Treaty.

Paris, July 27th.—The recent dispatches regarding abandonment of negotiations for an American commercial treaty with Spain are absolutely incorrect. The adjournment of the Spanish Cortes was the signal for a renewed activity in negotiations, which, according to reliable authorities in the Foreign Office, have not been interrupted.

The Chinese Embassador in Paris.

Paris, July 27th.—President Grevy received the Chinese Embassador to-day with military honors. The Embassador assured Grevy that it was the firm desire of the Empress to be at peace with France.

The Panama Canal.

Paris, July 27th.—M. De Lesseps, in his report on the Panama Canal Company, maintains that the canal will be completed in 1888. He defends the company from the attacks made upon it, and says they are simply a renewal of the attacks made during the piercing of the Suez Canal. The Colon-Panama revolt has not affected the shareholders. Two new contractors have undertaken to complete the work for 19,200,000 francs. The total cost of piercing will be 28,000,000 francs, to which will be added interest on the capital, etc.

Another Revolution Movement in Mexico.

City of Mexico, July 27th.—There is a report here of a revolutionary movement at Tuspam. The Government does not consider the affair serious.

MERCHANDISE REPORT.

The following freight passed Ogden on the 24th instant:

For Sacramento—Kirk, Geary & Co., 6 cases syrups; Weinstock & Lubin, 2 cases pins; Hall, Luhrs & Co., 2,289 bellies, 30 butts tobacco; Charles Heinrich, 16 boxes cheese.

For Marysville—Garrett & Elder, 17 packages and 16 boxes tobacco.

The following freight passed New Orleans on the 17th instant:

For Sacramento—C. H. Gilman, 4 cases boots and shoes; McKim & Orth, 1 case books; Locke & Lavenson, 2 rolls carpet; C. S. Houghton, 1 case books, 2 cases envelopes; J. T. Stoll, 1 case whips; Huntington, Hopkins & Co., 10 boxes coffee mills, 5 boxes screws, 10 cases rivets and bars, 1 case butts, 5 cases shells, 2 cases primers, 2 cases hardware, 1 bale cord.

Yavapai county now furnishes pure cold water to the citizens of Phœnix. The *Herald* says: Joseph Tasker has struck on his ranch, near Phœnix, a well in which the water is so cold that ice and olias are unnecessary. It is probable that a stream from the Bradshaw mountains has been encountered.

The Board of Supervisors of Santa Barbara county have granted a franchise for the construction of a new wharf at the mouth of the Santa Ynez river. The structure is to be 1,000 feet long and 75 feet wide.

SAN FRANCISCO MARKET.

San Francisco, July 27th.

FLOUR—Prices are well maintained. We quote: Best city extra, $4 25@5; medium, $3 50@4; shipping superfine, $2 75@3 50 ℔ bbl.

WHEAT—Business is still very slow of movement. Holders keep good offerings off the market, mainly because the bidding figure does not come up to their views. Shippers are also reticent in regard to making purchases, and it is only when pushed that they will pay over $1 42½ ℔ ctl for the better grades. The general asking price, however, is $1 45½ ℔ ctl, and there is little disposition shown to accept any lower figure.

Afternoon sales were:
Buyer season—100 tons, $1 65@1 64½.
Buyer 1885—900 tons, $1 56¼@1 56½ ℔ ctl.

BARLEY—The light inquiry this morning tended to slightly weaken the situation. There is no desire to warehouse consignments, and to avoid such action, more or less moderate shading is submitted to. Although $1 20 ℔ ctl is asked for choice feed, it is not more than probable that a tender of $1 17½ would not be refused. Brewing runs along quietly at the old range of $1 30@1 35 ℔ ctl for old and $1 25 for new crop.

Call Board sales at the morning session of the San Francisco Produce Exchange were as follows:

Buyer 1885—900 tons, $1 28; 100, $1 28¼ ℔ ctl.
Seller 1885, new—100 tons, $1 21¼; 600, $1 21½; 900, $1 21⅝ ℔ ctl.

OATS—Pressure to sell has further weakened values. Surprise and Milling, $1 25@1 37½; No. 1, $1 12½@1 15; No. 2, $1@1 10; Black, $1@1 10 ℔ ctl.

CORN—No business worthy of note. Large Yellow, $1 15@1 20; small Yellow, $1 22½; large White, $1 15@1 20; small White, $1 15@1 20 ℔ ctl.

VEGETABLES—Business this morning was somewhat inactive. The demand was light and slow, while receipts were moderate in volume, so that values were not materially disturbed. We quote: Tomatoes, 10@15c for Winters, and 25@35c ℔ box for river; Green Corn, 8@10c ℔ dozen; Egg Plant, 25@40c ℔ box; Artichokes, 15c ℔ dozen; Cucumbers, 15@40c ℔ box; Carrots, 30@40c ℔ ctl; Turnips, 50@60c ℔ ctl; Beets, 40@60c ℔ ctl; Parsnips, $1 ℔ ctl; Cauliflower, 65c ℔ dozen; Cabbage, 75c ℔ ctl; Garlic, 2½@3c ℔ lb; Celery, 50c ℔ dozen; Green Peppers, 25@50c ℔ box; Green Peas, 1½@2½c ℔ lb; String Beans, 1½@2c ℔ lb; Dried Okra, 15@25c ℔ lb; Green do, 5@7c ℔ lb; MarrowfatSquash, $8@10 ℔ ton; Summer Squash, 40@50c ℔ box.

FRUIT—Arrivals to-day were placed at about the same figures as were current at the close of last week. EPPS'S COCOA.
BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—[Civil Service Gazette.

WEEKLY UNION

A paper unsurpassed in value by any published in the United States.

The WEEKLY UNION presents the largest and best variety of matter of any paper West of the Rocky Mountains.

All the Departments represented in the DAILY RECORD-UNION appear in the WEEKLY.

The merits of this INCOMPARABLE JOURNAL are being more fully appreciated now than at any time in its history.

Its Circulation

Has always been and remains more general than that of any other paper published in California, and it is constantly increasing. It circulates in every part of California, Nevada, Oregon, Washington Territory, Idaho, Montana, Utah, Arizona, and the Sandwich Islands, with a large list of subscribers in the Atlantic States and Europe.

Within the past year its circulation has had a MARKED AND RAPID INCREASE. The WEEKLY UNION is, therefore, at the very head of all papers of its class published on the coast. It is the BEST ADVERTISING MEDIUM for all who desire to reach the Farming and Mining Community.

Terms: $2 per year; $1 25 for six months; 75 cents for three months.

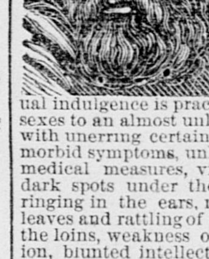
To the Unfortunate.
DR. GIBBON'S DISPENSARY,
623 Kearny Street, San Francisco.


Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, Skin Diseases, etc., permanently cured or no charge.
Seminal Weakness. Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fœtid breath, coughs, consumption, night sweats, monomania and frequently insanity.
CURED AT HOME.
Persons at a distance may be cured at home by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing ten dollars in registered letter, through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. The Doctor cures when others fail. Try him. Mention the RECORD-UNION. Address DR. J. F. GIBBON,

DR. RICE,
For 15 years at 37 Court Place, now at
322 Market Street, Louisville, Ky
Bet. Third and Fourth,
A regularly educated and legally qualified physician and the most successful, as his practice will prove.
Cures all forms of PRIVATE, CHRONIC and SEXUAL DISEASES.
Spermatorrhea and Impotency,
as the result of self-abuse in youth, sexual excesses in maturer years, or other causes, and producing some of the following effects: Nervousness, Seminal Emissions, (night emissions by dreams), Dimness of Sight, Defective Memory, Physical Decay, Pimples on Face, Aversion to Society of Females, Confusion of Ideas, Loss of Sexual Power, &c., rendering marriage improper or unhappy, are thoroughly and permanently cured. SYPHILIS positively cured and entirely eradicated from the system; Gonorrhea, GLEET, Stricture, Orchitis, Hernia, (or Rupture), Piles and other private diseases quickly cured.
It is self-evident that a physician who pays special attention to a certain class of diseases, and treating thousands annually, acquires great skill. Physicians knowing this fact often recommend persons to my care. When it is inconvenient to visit the city for treatment, medicines can be sent privately and safely by mail or express anywhere.
Cures Guaranteed in all Cases undertaken.
Consultations personally or by letter free and invited. Charges reasonable and correspondence strictly confidential.
